

## Post 16 Exam Results 2023

Regardless of the challenges this year group has faced and the Government's decision to return to pre pandemic standards, our sixth form students have received some excellent results this summer. The fact that our students have achieved so well is credit to their determination, hard work and the support of families and College staff.

Many students in many subjects achieved very well but we must single out the following subjects for exceptional results: Art, Business, Health and Social Care, Mathematics, Sport, Psychology, Photography and Textiles.

In total 133 Frome College students sat examinations for 365 qualifications across 30 subjects, below are the percentages of grades with a comparison to 2019 in brackets.

Percentage of A/A\* grades    **24 %** (24%)

Percentage of A\*/B grades    **52 %** (46%)

Percentage of A\*/E grades    **98%** (96%)

As you can see, our students have performed extremely well and standards remain in line with or in fact above those of 2019. Well done and congratulations to everyone- we are very proud of you all.

On Thursday 7<sup>th</sup> September, we look forward to welcoming back our Year 13 students who have already completed an excellent year 12 – a firm foundation for success in the exams of 2024.

Emma Reynolds. Principal

Well done to each and every student who took post 16 examinations this summer. You have all done really well and deserve an excellent future- whether that be gap year travel, University, apprenticeship or employment. Good Luck!

Gayle Willmott, Chair of Governors
