GCSE and BTEC Exam Results

We are delighted to celebrate the outstanding achievements of our Year 11 students. Throughout their time in Key Stage 4, this year group has grown, contributed richly to College life, and demonstrated remarkable resilience and determination. Each student's success is important, and today we celebrate them all.

This summer, 287 Frome College students sat examinations across 30 subjects, achieving fantastic outcomes. Many of our students will now continue their journey into our Sixth Form, and we look forward to supporting their continued success in Post-16 studies.

Exam Highlights:

- **Modern Foreign Languages** – Results in French, Spanish and German are excellent. Over 30% of French and Spanish students gained the highest grades, while an impressive 55% of German candidates achieved Level 7 or above
- **Sciences** – Building on the strong A Level results last week, our GCSE Science outcomes are equally impressive, with more than 50% of candidates in Physics, Chemistry, and Biology achieving Level 7 or higher
- **Creative Arts** – Media, Dance, Drama, Photography, and Music continue to shine, with an average of 40% of students attaining Level 7 or above. These subjects remain at the heart of our College community, and it is wonderful to see such progress and creativity
- **Textiles** – Exceptional progress has been made, with 95% of the cohort meeting or exceeding their target grades.
- **Religion and Philosophy -** Results in this subject are outstanding, with 76% of students achieving Level 5 or above
- **SEND Achievement** – The outcomes of our SEND students have been truly inspirational, showcasing exceptional determination and resulting in remarkable personal successes. Over 50% surpassed their target grades across their GCSEs.
- **Boys and Girls** – Our results show far less of a gender gap than seen nationally, with boys and girls performing at very similar levels overall. Some subject-specific differences remain, with girls excelling in English and boys achieving higher results in Maths.

We look forward to celebrating the Class of 2025 at our Awards Evening on **Thursday, 13th November**, at the Memorial Theatre. This special event will highlight the many individual stories of progress and achievement that make this year group so unique. Further details will follow soon.

For our new Sixth Form students, the first day of Year 12 will be **Wednesday, 3rd September**, with a prompt start at 8:45am in Futures. Year 13 students will return on **Thursday, 4th September**.

A heartfelt thank you to our students, families, and staff for the dedication and support that made these results possible.

To those moving on to new adventures, we wish you the very best of luck—please keep in touch with your Frome College community

Emma Reynolds

Principal

As Chair of Governors, I am immensely proud of the achievements of our Year 11 students in their GCSE and BTEC examinations this summer. These results reflect not only the hard work and determination of our young people, but also the dedication of the staff and the unwavering support of families and the wider College community.

This year group has demonstrated a real commitment to both their studies and College life. Their successes span across the full range of subjects, from the sciences and languages to the creative arts, showing the breadth of talent which exists at Frome College.

Examination outcomes are one important measure of success, but what matters most is the progress our students have made and the individuals they have become. As many move into our Sixth Form, we are excited to see how they will continue to flourish and contribute. For those taking different pathways, we know they leave well-prepared for the opportunities ahead.

On behalf of the Governing Body, I congratulate every student and thank staff, families and our wider community for their role in making these successes possible.

Gayle Willmott, Chair of Governors
